

Project Design Phase-I Solution Architecture

Date	19 September 2022
TeamID	PNT2022TMID36512
ProjectName	VirtualEye- LifeGuardforSwimmingPoolsto DetectActive Drowning
MaximumMarks	4Marks

Solution Architecture Diagram:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems
- Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholder
- Define features, development phases, and solution requirements
- Provide specifications according to which the solution is defined, managed, and delivered
